

Turn unused software licences into revenue

It's legal, it's worth it and it's simple.

More and more companies are switching to the Microsoft Cloud. What many people don't know is that in most cases the perpetual licences that are no longer needed can be sold. Especially in the area of Microsoft licensing (Office 2016/2019 or Windows Server etc.) there is a high purchase value. We buy your software licences promptly and without complications.

When should I sell my Software Licences?

Have you recently switched to Microsoft's Office 365 rental model? If so, it is very likely that you have software in your company that is no longer needed. You can now sell this for a profit and thus increase your liquidity!

Even if you plan to switch to the Microsoft cloud model in the future, you can recoup some of the high running costs with revenue from the sale of your purchase licences.

Your advantages

Quick and simple

Legal reuse

Earn money

It's worth it

The price we can offer for your licences differ—it is based on actual supply and demand. Please ask for a current quote for your surplus licences which we can provide you within 24 hours.

It's legal

European Court of Justice issued a judgement on July 3rd, 2012 (case C-128/11) stating that the software product copyright holder cannot oppose the resale of a copy done by the customer that acquired the copy if the customer makes his own copy unusable at the time of resale.

Judgement applies to software licences that are perpetual, i.e., where usage is not limited to a specific time period and to licences that have been sold within The European Economic Area (which includes Iceland and Norway).

It's simple

The process

1. You provide us with data about your licences (see below)
2. We validate that the legal requirements are met
3. For validated licences, we provide you with a quote
4. Both parties sign a contract
5. Licences are transferred, by exchanging licence keys, etc. Approval of the software vendor regarding the licence transfer is not necessary.

The licence data we need

1. Amount
 2. Product: product name, version/edition
 3. Type of licence: EA, MPSA, Open, Select
 4. Registered licence owner and proof of ownership
 5. Country where the licence was sold
 6. When are licences available? Now or later?
- If possible, provide the software SKU to cover item 2 and 3 above.

We are mainly interested in the following licences

1. Manufacturers: Microsoft, Adobe and Autodesk
2. Platforms: Windows & Mac and clients & servers
3. Perpetual volume licences (e.g. Office 2016/2019, Windows Server 2019 etc.)

We may also be interested in licences that have reached End-of-Life, i.e. where the manufacturer no longer supports the software.

Doing business with Software ReUse—a reliable partner

- Software ReUse got started in 2011
- Based in Vienna, Austria
- Current markets: Austria, Germany, Italy, Sweden, France and Spain
- We make sure that all licence transfers follow legal requirements
